What it means: Your car's coolant is overheating. What to do: Quickly pull over and let your car cool down or the heat can destroy your car's engine. The symbol also comes in blue which means the coolant temperature is below what is needed for optimum performance. It normally pops up when you start up your car in the morning and the symbol should disappear once the vehicle warms up.

15 Car Dashboard Signs And Symbol (And What They Mean)

If there is one installed in the car, you absolutely need to have the repair manual for this type ready to avoid making mistakes when removing the dashboard. When the dashboard is removed, it comes down to more than just spot repair. Sanding, widening and filling the crack is done in the same way as the small repair.
