The Weber 32/36 is the optimum carburetor to replace a worn out or hard to maintain factory carb. The 32/36 progressive is a great carb for low-end power and fuel economy. If you've got a mildly built motor or daily driver, the 32/36 is the way to go for torque, low-end power, and fuel economy. This is a manual choke carb.

• The air injection system on the 77-82 uses an air pump and is not affected by the installation of the Weber Carb. • 83 and later models use a pulse air injection system. To use this with the Weber Carb you will have to drill two holes in the air filter top and place the two white plastic fittings in the air filter top.

The secret to understanding the critical nature of the carburetor set up and the advantages of a WEBER over other carburetors is the idle circuit. Referred to as the low speed circuit by Weber, this circuit is responsible for 80% of the driving operation. This is the reason that the Weber should give a fuel economy improvement over most factory ...
