Excellent book and and a fine complement to the Cartoon Guide to Physics and the Cartoon Guide to Chemistry by the same author. I did not purchase the Kindle version, so I can't answer for the negative experience those readers have had. If you're buying the print version, this is a great book which comprehensively and accessibly breaks down a ...

November 30, 2018. Make no mistake, The Cartoon Guide To Chemistry gives you a full introductory (and then some) science textbook lesson in the danger, fun, and wonder of chemistry, but all without the aridly pedantic, tedious wording. There are a few moments where Gonick and Criddle get a little too cutesy with the humor, but the book is never overwhelmed by them.
