Inc.

Performance. This year, you can find two performance WaveRunners in Yamaha's fleet.. The GP1800R HO offers 180 HP, and surprisingly, this is the only personal watercraft on the market which is considered a performance model, though it's powered with a non-supercharged engine. The higher performance version, the GP1800R SVHO, has a 250 HP supercharged Yamaha engine.

WaveRunner Horsepower Chart [All 2020 Models] - JetDrift

A Yamaha golf cart engine is typically a four-stroke gasoline engine with a single cylinder. This is deemed to be suitable when comparing the power and performance of the engine to the golf cart's weight (the official weight of the cart is 255 kg or 562 lbs.). From this calculation, the golf cart can reach a maximum speed of 15 miles per hour.

Yamaha Golf Cart Engine Specs | It Still Runs

One proof of this is that nowadays, the only two manufacturers in the world of mass-produced five side-valve engines are Yamaha and Audi (DKW - Auto Union). One of the most important legacies from this international relationship were all the skills learnt by Yamaha's engineers on two stroke engines know-how.
