Viewing a thread - difference between 148 and 158 JD loaders

Posted by Ed Meyers on May 04, 2005 at 12:19:52 from (65.17.81.94):. i have a 4320 and i know every body says 158 loaders fit them but i have seen some with 148's and i like the tight fit to the front of the tractor i also stumbled across a 260 that has a joystick but the brackets for a 2950 my question is could i modify them to fit my 4320 or should i try to find some for my tractor.

John Deere Tractors Discussion Board - 148 vs 260 loader

The rated breakaway with a 60 inch material bucket is 3150 pounds. The rated lift with a 60 inch material bucket

Download Ebook John Deere 148 Loader Specs

is 2100 pounds. The maximum lift height to the bottom of a level bucket is 103.5 inches. This is mounted on a 2030 with 13.6 X 28 rear tires and 6.00 X 16 front tires.
