2006 Kobelco ED150-1E \$50000 - JLA FORUMS

I am having hydraulic problems with a kobelco ed150. (its an equal to a 135sr, except an ed150 has a blade). The boom will not stay up, it just drifts down on its own. It will also not hold up the machine, it just drifts up (with down pressure on the boom). When switching control patterns the same problem occures (going from sae to iso pattern).
