A buddy of mine has an old Linde 160 mig welder. I noticed that he has lots of features that he doesn't seem to use much. I noticed a spot setting and a stich time setting. I am looking to get a new mig welder and have pretty well settled on either a Hobart 210 or a Miller 212.

Do you want to run a mig unit off the aux power or do you want to use a voltage sencing wire feeder off the welding output of the bobcat? A sep mig unit off the aux power works well as does a VS feeder. \$500 for a 120 volt unit, \$700 for a 240 volt unit and up. \$1600 to 1800 for a VS unit (new). Off course you can go used for more bang for the ...

Mig Set Up With Bobcat 225? - Weld Talk Message Boards

HOW TO WIRE FOR AN ELECTRIC WELDER Electric arc welders are common home shop tools. One size, the 225 amp model, has become the standard of the industry. Even if you have made up your mind to buy a smaller amperage model, we would still recommend wiring the circuit to accommodate the larger amperage unit. The cost of doing so is just slightly more.

HOW TO WIRE FOR AN ELECTRIC WELDER

I need a new welder. My crappy master craft one crapped out on me. So I was looking on opinions of which welder is best for me doing body work to my car. I don't care about price just really want reliability. I can get a linde 180 mig. Or a hobart handler 140. My linde dealer also sells miller brand so I'm sure I could get a miller equivalent.

Miller vs hobart vs linde : Welding

linde mig 225 Welding. I bought this little VI-206 at an auction 2 or 3-years ago. I was told at the local welding supply they could get any part for it through ESAB, but sometimes it was hard to convert the numbers.
