Once you find something you're interested in, click on the book title and you'll be taken to that book's specific page. You can choose to read chapters within your browser (easiest) or print pages out for later.

Quicksilver Mx Ii Sprint Assembly

The MX II Sprint is ideal for the recreational flier and flight schools. Its high lift, single surface wings give it an exceptionally short take-off roll and predictable handling at very low flight speeds. These characteristics make the MX II Sprint easier to learn to fly than anything in its class.

MX II Sprint - Quicksilver Aircraft

Yet it retains the docile and predictable slow flight characteristics that made the original MX famous. With its combination of great flying performance, Quicksilver's world-renowned quality and a six-month written limited warranty, the MX Sprint sells itself! But performance and handling are only part of the picture.

MX Sprint - Quicksilver Aircraft

At 55% power (rpm/mph) 5300/42: At 65% power (rpm/mph) 5600/50: At 75% power (rpm/mph) 5900/56: At 100% power (rpm/mph) 6500/60
