A Basic Approach to Human Rights Research. Since the 1960s and the origins of the modern human rights movement, human rights organizations have produced their own research. In-depth and well-documented reports, replete with testimonial evidence and analysis of government policy and practice, are the stock-in-trade product of human rights organizations.

A Basic Approach to Human Rights Research

Abstract. This article suggests that research in the field of human rights, especially legal human rights research, exhibits a tendency to devote insufficient attention to questions of methodology. This may be caused by the fact that human rights scholars often are (former) human rights activists. Dispensing with methodological niceties enables them to engage in wishful thinking and come up with the conclusions they were hoping to find in the first place.
