mission; its vision for where it wants to be in the future; and the values that will guide its actions. The process requires a commitment to strategic planning, a subset of business management that involves an organization's ability to set both short- and long-term goals.

## **What is Strategic Management, and Why is it Important?**

Strategic Management. A business can have a strategic plan with clear goals to guide business operations over a period of one to 10 years. The company leadership can align budget dollars toward a body of strategic goals. Strategic management is how leaders implement the business' strategy and the current strategic plan.

## **Strategic Management Vs. Strategy | Your Business**

Strategic management is an organization's process of continuous planning, executing, monitoring, analyzing and

assessing all that is necessary for an organization to meet its goals and objectives in pursuit of a future direction.

## **What is Strategic Management? | LBL Strategies**

Both strategic management and strategic planning terms mean the same! The difference is that the latter one is more used in the business world while the former is used in the academic environment. According to David, [1] strategic planning is sometimes confused with strategy formulation, because strategic plan is constructed in this stage.
