The "Train Through Time" series is a five-book, time travel, science fiction-romance saga. Each of the five books in the series focuses on the story of a different, young woman who gets on a train in the 21st Century, but falls asleep and awakens in the very early years of the 20th Century, penniless and "scandalously" miss-dressed.

A Train Through Time is the first book in a series and so far I'm in love! I love the story and I love the characters and can't wait to see how this series progresses. The ending was a great little twist and one I didn't see coming, but loved it!

### **A Train Through Time (Train Through Time, #1) by Bess McBride**

The most complete list of movies in which time traveling or time looping are a prominent plot device. Time travel is the concept of moving between different points in time in a manner analogous to moving between different points in space, generally using a theoretical invention known as a "time machine".

The book's structure is interesting: she alternates between an account of a childhood train trip through the snowy West with some of her experiences reporting from dangerous places. Farnsworth's mother had just died at the time of the train trip, and her father took her across the country to see relatives in California.
